We focus our expertise on serving our customers through a range of efficient, customized freight and distribution solutions. We're a customs bonded carrier serving Canada and the United States, with connections to a North American network of transportation associates. In fact, we can offer you worldwide service on air freight and ocean freight to handle all of your overseas shipments. Our value is in understanding our clients' requirements which range from the simple repositioning of inventory through to the transportation of over-dimensional loads. Our primary aim is to achieve your deliveries within the shortest possible time frame while remaining cost effective. We pride ourselves on commitment to service and enjoy long-term relationships with all of our regular clients.

Your shipment will receive personalized dispatch, allowing you to arrange, book and trace the progress. Our dispatchers and trucks use satellite technology for two-way communication and

position reports, 24 hours a day so we know where every load is, all the time. This will be backed up by our professional management team and with courteous, qualified and knowledgeable drivers who give your freight the care it deserves. The T-Lane team is a group of people with an extensive background in the practical and operational aspects of transport and our safety and compliance, hiring and maintenance policies are top priorities.

We believe quality is about satisfying our customers' needs through the involvement of all of our people. The aim is to attain a standard well above that expected in the industry. All employees are encouraged to be part of the continuous improvement, incorporating quality into operations through working closely with customers and their clients.
